About SetPoint Medical

SetPoint Medical is a privately held clinical-stage bioelectronic medicine company dedicated to treating patients with chronic autoimmune diseases. SetPoint Medical's bioelectronic medicine platform is intended to offer patients and providers a treatment alternative for rheumatoid arthritis, inflammatory bowel disease and other chronic autoimmune conditions with potentially less risk and cost than drug therapy. The company is developing a novel bioelectronic medicine platform that stimulates the vagus nerve to activate the inflammatory reflex to produce a systemic immune-restorative effect. Current investors in the company include New Enterprise Associates (NEA), Morgenthaler Ventures, Topspin Partners, SightLine Partners, GlaxoSmithKline's Action Potential Venture Capital and Boston Scientific as well as an additional undisclosed strategic investor (leading medical device company).
